

Fred Lawrence Whipple Observatory  
presents

# SCIENCE SATURDAY

the first Saturday of each month

Free &  
fun for  
all ages!

March 2, 2019

9am-1pm

## **SOLARBRATION**

Earth's Sun is more than just that "thing" in the sky that makes summer weather. Join us to learn about its complexities through magnetic fields and auroras.

April 6, 2019

9am-1pm

## **EARLY BIRD EARTH DAY**

Earth Day may be April 22, but we're celebrating early by learning how plants grow in space, and by planting our very own seeds.

May 4, 2019

9am-1pm

## **MAY THE 4TH BE WITH YOU**

Star Wars has its own brand of science and we're celebrating in style with demos and activities inspired by the film series. Come dressed as your fave character for a special prize!

June 1, 2019

9am-1pm

## **FOOD IN SPACE**

Have you ever wondered what astronauts eat in space, how it's made, and what it tastes like? This is the event for you.
